» Dermatologist Advice: What Can Make Your Skin Stay Young?

# Splurge of the month

The **SK-II LXP** line has three luxurious products that promise youthful, radiant skin beyond your expectations. They are LXP Activating Massage Fluid, \$138, LXP Moist Softening Serum, \$288, and the most premium of the lot is LXP Ultimate Revival Cream, \$408, a super-concentrated luxury cream with SK-II's highest concentration of Pitera to fight signs of ageing.

## Defy gravity now!

Before the tips of your eyelids droop, the jowls sag and the upper lip disappears, find out the ways to looking forever young without having to visit the dermatologist.

### Fill in the lines

**L'Oréal Collagen Filler Wrinkle De-Crease**, \$34.90, is an intensive wrinkle-filling and -reducing essence.

**Biotherm Biofirm Lift Cream**, \$115, not only fills wrinkle hollows but firms up the skin.

### Boost hydration

**Laneige Power Essential Skin Refiner Light**, \$38, and **Balancing Emulsion 2**, \$45, from the Dusali Water range, are patterned after the seaweed that's found in the Dead Sea to promote healthy skin.

### Peel away

**Comfort Zone Fruity Peel Rejuvenating Gel**, \$74, uses alpha-hydroxy acids and jojoba for deep exfoliation, making way for a flawless complexion.

**Nu Skin 180 AHA Facial Peel and Neutralizer**, \$143, uses 10 percent lactic acid solution to sweep away skin debris and promote cell renewal.

### Laser off

**Nulase Soft Touch Laser Kit**, \$350 (introductory price), is a safe, non-invasive laser light that allows you to zap away old skin cells and speed up collagen reproduction for a healthier, more glowy skin. Available at Seiyu Bugis and selected Guardian outlets.

## \* BEAUTY tête-à-tête

At the launch of SK-II Whitening Source Clear Lotion and Skin Brightener, **CLEO** had a skin chat

with **Dr Patricia Yuen**, consultant-dermatologist at Pacific Healthcare Specialist Centre.

### What are the options for treating pigmentation?

Depending on the cause, you can choose targeted laser treatments or use whitening skincare. In terms of at-home care, you should always exfoliate. You can't just rely on monthly treatments — you need to do your homework with effective skincare products. **How important is exfoliation in a whitening regime?** It helps remove the superficial layer of debris called "melanin dust" — fragments of melanin that cause persistent skin discoloration. SK-II Whitening Source Skin Brightener (\$168) and Clear Lotion (\$88) are designed to sweep away this dullness. **How soon can one see results with these SK-II products?** The results differ from person to person, depending on one's skin type and problems. But on the average, results can be seen in a week. **What's the latest in cosmetic dermatology?** The Sciton MicrolaserPeel peels deeper than microdermabrasion. It's used for smoothing scars, ablating fine lines, tightening pores and for overall facial rejuvenation.
